

TRANSCOPE™ & STORASCOPE™

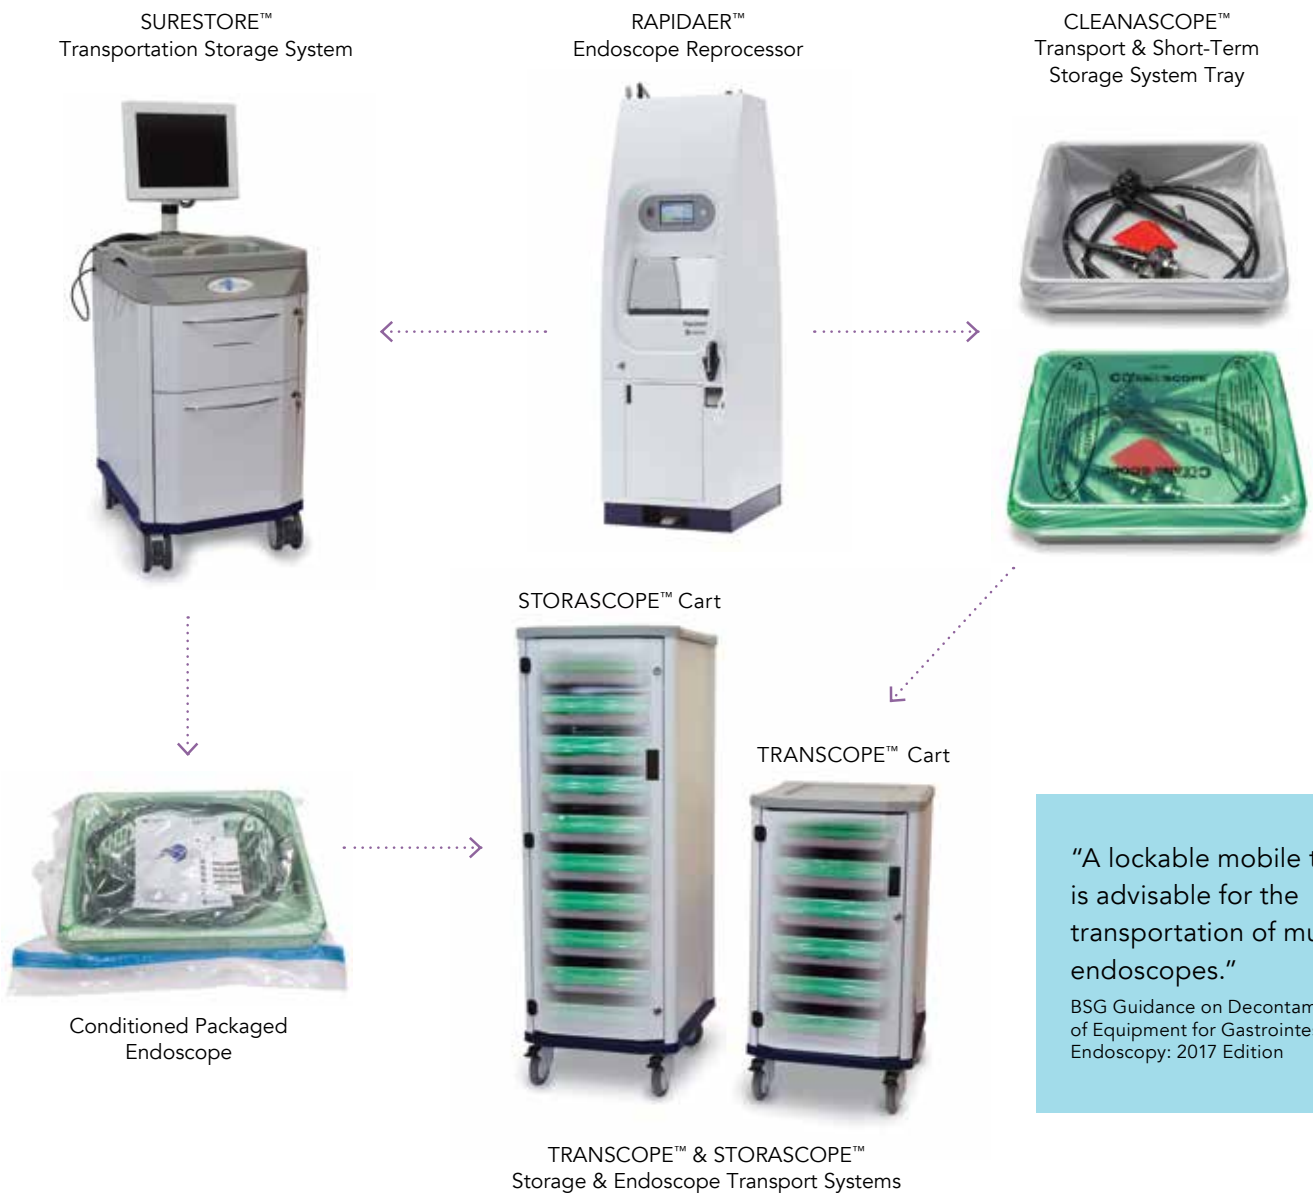

Storage & Endoscope Transport Systems

Dry & Store

SAFE, SECURE TRANSPORT & STORAGE SYSTEMS FOR YOUR ENDOSCOPES

With their easy-to-manoeuvre and highly secure design, the TRANSCOPE™ & STORASCOPE™ Endoscope Storage and Transportation Systems protect your valuable equipment during transport to and from the procedure room, and while inventory remains in storage.

“A lockable mobile trolley is advisable for the transportation of multiple endoscopes.”
 BSG Guidance on Decontamination of Equipment for Gastrointestinal Endoscopy: 2017 Edition

THE COMPLETE CIRCLE OF PROTECTION

As the global vanguard in infection prevention, **only Cantel delivers the Complete Circle of Protection**, a full-value, proactive partnership dedicated to helping you remove risk, streamline operational efficiencies and optimise your success.

DRY & STORE Bacterial growth poses significant risk to endoscopes during storage. Our Transport, Drying and Storage solutions are designed to protect valuable inventory, reduce cross-contamination touch points, eliminate moisture in the endoscope channels and control humidity. Higher humidity or moisture in endoscope channels is known to aid bacterial growth.

STORAGE AND ENDOSCOPE TRANSPORT SYSTEMS

STORASCOPE™ Cart

Locking doors for secure storage & transport

Independently lockable castors

TRANSCOPE™ Cart

TRANSCOPE™ Cart is shorter and equipped with a handle for ease of transport

Compatible with CLEANASCOPE™ Trays and SURESTORE™ Trays

The TRANSCOPE™ Cart accommodates six trays and is designed to safely and securely transport your clean or contaminated endoscopes and other delicate equipment to and from the decontamination facility.

The STORASCOPE™ Cart contains 10 trays and is designed for secure storage of valuable inventory within the decontamination/procedure room.

- 5" lockable castors for easy manoeuvrability and positioning of carts
- Locking doors for secure transport and storage
- Removable trays for easy cleaning
